Get help paying for college

Awards, scholarships and bursaries — one application to rule them all!

Mohawk College has a single application process for all eligible awards, scholarships and bursaries. Scholarships are awarded based on merit, while bursaries are provided based on financial need. Both are available each term. Students in full-time studies must reapply each term to be considered.

Grants and loans

The Ontario Student Assistance Program (OSAP) helps students pay for college through grants (no repayment) and loans (repayment required). When you apply, you're considered for both. How much you get depends on your financial need, family situation and course load.
