Accessible Learning Services
ALS Intake Communication

Your Learning Matters!

We Are Here to Support Your Academic Accommodation Needs

Students in the current semester (Winter 2020) can still register with Accessible Learning Services. We are currently facilitating intake appointments via phone, Skype, or Zoom. Please visit our website for registration information.

At this time, we are not asking students to book appointments with their healthcare provider(s) for the sole purpose of seeking medical documentation. We will proceed with an intake appointment; however, the approval of accommodations may likely be on a temporary basis. If you have alternate documentation (High school IEP, letter from previous college/university, past medical documentation, etc.), please submit as part of the registration process outlined in the above link.

For new students in the upcoming Spring Summer semester, or who are starting in the fall 2020 semester and are seeking to register with Accessible Learning Services, we will be booking new intake appointments starting in May. However, we would still encourage you to complete the registration process online. In the meantime, Accessibility Support Officers will be able to support you in answering your questions about Accessible Learning Services, as well as advise you to your next steps in preparing for college.

To book an appointment please contact als@mohawkcollege.ca or phone (905) 575-2211.
