

Reading Grade(s)

Grades

The Grades page displays your course gradebook. By default, the grade calculation only displays grades for assessments that have been submitted and/or graded [1] and because of this, the “Total” value can be misleading. It may not indicate your actual achievement in the course at a given time. For many courses, the “Total” is only accurate upon completion of the course, which is when the course has ended.

To ensure the grades total portrays a more accurate real-time calculation, it is strongly recommended that students changes their default grade view to “View Total Grade”. Please follow these instructions.

Viewing Total Grade

In order to view a grade total that includes all of the course assessments, whether they have been graded or not, deselect the sidebar checkbox labeled “Calculate based only on graded assignments” [2]. The Total values in the gradebook will now reflect your total grade.

Total: 90.04% (A-)

Show Saved "What-If" Scores

Show All Details

Assignments are weighted by group:

| Group | Weight |
|--------------|------------|
| Assignments | 30% |
| Quizzes | 20% |
| Discussions | 30% |
| Extra Credit | 10% |
| Total | 90% |

Calculate based only on graded assignments

1 You can view your grades based on What-If scores so that you know how grades will be affected by upcoming or resubmitted assignments. You can test scores for an assignment that already includes a score, or an assignment that has yet to be graded.

Total: 37.8% (F)
