**General Description of Duties:**

**Reporting to the Operations Supervisor, the Machine Shop Technician will be responsible for operating machinery in the overhaul repair shop and for repairing complex parts, producing to close tolerances.**

**Performs complete set up procedures and operates the horizontal milling machines and Bridgeport**

**Verifies and inspects work performed with all available types of measuring equipment**

**Ensures compliance with engineering and overhaul instructions**

**Reads blueprints for each part to be machined**

**Performs own inspection as job progresses and reports any discrepancies that cannot be altered independently**

**Monitors machine oil levels and operation. Ensures proper running of machines and minimizes down time**

**Maintains and cleans equipment on a daily basis**

**Machines parts as requested on the Rework Material Shop Order or salvage drawing**

**Completes necessary paperwork to accompany machined part**

**Skills and Experience Required:**

**Community College Diploma (3 year program), General Machinist Apprenticeship or 40-week Machine Shop course preferred**

**Minimum one (1) year work experience in an industrial setting (experience with landing gear components preferred)**

**Ability to read and interpret blueprints required**

**Experience with Bridgeport Milling Machines, larger horizontal milling machines and some experience with grinders and lathes is required**

**Competence in using verniers, micrometers, dial bores and thread gauges is required**

**How to Apply:**

**Send resume to [Dawn.Hoffman@utas.utc.com](mailto:Dawn.Hoffman@utas.utc.com)**
