College-Specific Articulation Agreements

CONESTOGA COLLEGE:

Biotechnology Technician Diploma

Students who complete Conestoga’s Biotechnology Technician Diploma with an average of 75% or better shall be eligible to enrol in the Honours BA Biology program. Those students applying for BSc Biology, BSc Biochemistry/Biotechnology or BSc Chemistry must have also achieved a minimum of 60% in MHF4U before they apply.

As part of this agreement students will receive advanced standing credit from Laurier for: BI110, BI236, BI276; 0.5 unspecified junior ‘Division A’ credit; and 1.5 unspecified junior ‘Division C’ credits. In addition, students may receive credit equivalent to the following Laurier courses provided they have a minimum 75% grade in each of the Conestoga courses listed in parentheses: CH110 (must have both CHEM 1000 and BIOT 1055); CH202 (for either BIOT 1080 or BIOT 1085); and 0.5 senior MA credit (must have both MATH 1760 and BIOT 2030) which may be used in lieu of MA240 or MA241 where required by the specific Laurier degree program. However, at most 5.0 transfer credits will be allowed in total, although the Faculty of Science reserves the right to revise specific course equivalencies should program requirements or course offerings change at either institution.

NOTE: BI111 and CH111, which are prerequisites for all senior courses in their respective disciplines, are only taught in the Winter term. Students are strongly advised to consult with the undergraduate advisor in the academic department offering their specific program (Biology for the BA or BSc Biology programs; Chemistry for Chemistry or Biochemistry/Biotechnology BSc programs) prior to registering for Laurier courses to ensure optimum use of their transfer credit.

CONESTOGA COLLEGE:

Software Engineering Technology Diploma

Students who have successfully completed Conestoga’s 3 year Software Engineering Technology Diploma with a 75% average or better will be eligible for admission into the Honours BSc Computer Science program. Laurier will specify what courses must be completed rather than specifying transfer credits.

Students will be required to complete 2.5 years at Laurier, during which time they must complete 25 half credit courses.

Pre-Health Articulation Agreements

Conestoga College:
The Conestoga/Laurier Pre-Health Articulation Agreement aims to grant admission to those students who graduate from Conestoga’s Pre-Health Sciences Certificate, to Laurier’s Bachelor of Arts & Science in Health Studies (BASc), at our Brantford campus. The articulation allows for Pre-Health students graduating with an overall 75% average and a 75% in the math courses (which includes two courses: MATH 1990 Pre-calculus Functions and Graphics and MATH 1980 Developmental Mathematics for Health Sciences Foundations) to gain admission to the BASc. In addition, students will be granted 2.5 transfer credits towards the BASc program. These credits include: HS 101, HS 201, OL 350 and 1.0 junior miscellaneous credits.

Mohawk College:
The Mohawk/Laurier Pre-Health Articulation Agreement aims to grant admission to those students who graduate from Mohawk’s Pre-Health Certificate, to Laurier’s Bachelor of Arts & Science in Health Studies (BASc), at our Brantford campus. The articulation allows for Pre-Health students graduating with an overall 75% average and a 75% in the math courses (which includes two courses: MATH 1008 Pre-Health Math 1 and MATH 1009 Pre-Health Math 2) will gain admission to the BASc. In addition, students will be granted 2.5 transfer credits towards the BASc program. These credits include: HS 101, CT 222, CT/HS 203 and 1.0 junior miscellaneous credits.
