CX3000 Lync Conference Phone

1. Connect the network cable

Connect the end of the cable labelled 1 to the power connector jack labelled 1. Connect the end of the power connector to the network jack on the wall.

If the phone lights up, no further connections are required.

2. Connect the power supply

Connect the small end of the power supply labelled 2 to the connector labelled 2. Plug the power cord into a wall outlet.

**Repacking the conference phone**

Please bundle the cables and tie them with the enclosed Velcro straps before placing them back in the case.

Do not place any objects or cables on top of the phone’s display.
