Flexible Learning

Students at Mohawk will have opportunities to learn and practice skills in a variety of situations, including self-directed, self-paced activities and collaborative, group-based assignments.
Online learning courses are delivered through MyCanvas, our online learning management system, with no in-person meetings of students and instructors.

What is online learning?
What is blended learning?

Blended learning courses integrate both face-to-face learning and online learning.
What is experiential learning?

Experiential learning is an activity that exposes students to authentic situations and expectations in a workplace or simulated workplace environment. Examples include co-op, placement and capstone projects.
