Meet our amazing alumni

Grads share their career journey and advice.

1 "I really liked that Mohawk's nursing program allowed students to complete their diploma in a year and a half compared to the two-year time frame offered at other colleges I researched. I also knew that I would thrive in the interactive hands-on learning style provided at Mohawk."

Paul, Practical Nursing, '18

2 Shortly after applying to Mohawk, Tara connected with Indigenous Student Services (ISS) at the college, seeking their assistance with OSAP applications, registration and more. "They helped me with the whole process and explained things to me a lot better than what I could find on my own."

Tara, Social Service Worker, '20

3 "I took an automotive class in high school, and my teacher recommended I try a co-op placement at KF Aerospace. From my experience, I learned I really enjoy working on aircraft. I had also heard great things about the program at Mohawk. Those two things ultimately led to my decision to attend Mohawk."

Ashley, Aviation Technician - Aircraft Maintenance, '15

4 "Study hard in school, but also take time on your own to study other things that aren't covered in school. IT is such a huge topic that a single program cannot cover everything. I had a co-op term with IBM, which allowed me to network and build relationships.

Ultimately, that co-op term was what enabled me to get a job at IBM after graduation."

Darius, Computer Systems Technology - Network Engineering and Security Analyst, '19

5 "I knew for a long time before that I had an interest in [photography]. My mom would always say I had the eye for it. In high school I noticed that it was the one thing I gravitated towards, and really put effort into."

Daniel, Creative Photography - Still & Motion, '17

6 “Mohawk was a defining moment for me. Yes, the program was challenging, but it prepared me for my career and exposed me to the many aspects of computer engineering and automation that I love today.”

Racheal, Computer Engineering Technology, '21

7 “There are a lot of different opportunities in welding. Don’t ever stop asking questions. Continue to challenge yourself. Be open to learning new things, because you’re never, ever going to know everything about your trade. That’s the key thing about being a tradesperson,

there’s so much to learn, and I keep learning every single day to be the best I can be.”

Kaylyn, Mechanical Techniques (Welding and Fabrication), '15

8 “Before studying at Mohawk, I didn’t know anything about drawing. My drawing skills were stick men. Mohawk taught me how to draw, considering things like perspective and the principals of drawing and design.”

Lávio, Animation 3D, '21

Land Acknowledgment

Mohawk College derives its name from the Mohawk Nation, one of the Six Nations of the Haudenosaunee Confederacy. The Confederacy marks a union of peace and friendship, and Mohawk College honours that union by recognizing the Six Nations of the Grand River and the Mississaugas of the Credit First Nation.

We acknowledge that the territories on which Mohawk College and its campuses are situated are governed by the Between the Lakes Treaty, the Dish with One Spoon Wampum Agreement, and the Upper Canada Treaty Agreement.
